

Silicon Motion Technology Corporation (NasdaqGS: SIMO) is the global leader in developing NAND flash controllers for SSDs and other solid state storage devices. We have over 20 years of experience developing specialized processor ICs that manage NAND components and deliver market leading, high-performance storage solutions widely used in data centers, PCs, smartphones and commercial and industrial applications. We have one of the broadest portfolios of controller intellectual properties developed from our deep understanding of NAND characteristics, which enables us to design both unique, highly optimized configurable IC plus related firmware controller platforms and complete turnkey controller solutions. More NAND flash components, including current and up-coming generations of 3D flash produced by Kioxia, Micron, Samsung, SK Hynix and its subsidiary Solidigm, Western Digital and YMTC, are supported by Silicon Motion controllers than any other company. Our customers include NAND flash makers, module makers, hyperscalers and OEMs.

We are the world's leading supplier of SSD controllers used in PCs and other client devices and leading merchant supplier of eMMC/UFS controllers used in smartphones and IoT devices. Our MonTitan Platform family of enterprise SSD controllers provides high-performance, high capacity SSDs supporting the latest generations of TLC and QLC NAND.

We also leverage our controller expertise to supply customized small single-chip form factor SSDs for industrial, commercial and automotive applications.

We market our controllers for PCs and eMMC/UFS under the "SiliconMotion" brand and its logo, "FerriSSD," "Ferri-UFS" and "Ferri-eMMC" for storage solutions, and "MonTitan" for enterprise SSD controllers.

We were founded in 1995 in San Jose, California and now operate from corporate offices in Hong Kong, Taiwan and the US.

Quick Facts

Founded	1995
IPO	2005
NasdaqGS	SIMO
Employees	1,546 (2023 year-end)

Key Products

- **SSD controllers — global leader**
- **eMMC & UFS controllers — global merchant leader**
- **Enterprise SSD controllers — emerging high-performance leader**
- **Customized specialty SSD solutions — global leader**
